

Asian-Australasian Journal of Animal Sciences

May 2014

Volume 27 Number 5

Contents

ANIMAL BREEDING AND GENETICS

77. Effects of Variants in *Proopiomelanocortin* and *Neuropeptide Y* Genes on Growth, Carcass, and Meat Quality Traits in Rabbits / *Wen-Chao Liu, Shi-Yi Chen, Xian-Bo Jia, Jie Wang, and Song-Jia Lai* (China) 609
78. Empirical Selection of Informative Microsatellite Markers within Co-ancestry Pig Populations Is Required for Improving the Individual Assignment Efficiency / *Y. H. Li, H. P. Chu, Y. N. Jiang, C. Y. Lin, S. H. Li, K. T. Li, G. J. Weng, C. C. Cheng, D. J. Lu, and Y. T. Ju* (Taiwan) 616

ANIMAL REPRODUCTION AND PHYSIOLOGY

79. Prolificacy and Its Relationship with Age, Body Weight, Parity, Previous Litter Size and Body Linear Type Traits in Meat-type Goats / *Avijit Haldar, Prasenjit Pal, M. Datta, Rajesh Paul, Saumen K. Pal, Debasis Majumdar, Chanchal K. Biswas, and Subhransu Pan* (India) 628
80. Rapamycin Rescues the Poor Developmental Capacity of Aged Porcine Oocytes / *Seung Eun Lee, Eun Young Kim, Hyun Yong Choi, Jeremiah Jiman Moon, Min Jee Park, Jun Beom Lee, Chang Jin Jeong, and Se Pill Park* (Korea) 635

RUMINANT NUTRITION AND FORAGE UTILIZATION

81. Naturally Occurring Lactic Acid Bacteria Isolated from Tomato Pomace Silage / *Jing-jing Wu, Rui-ping Du, Min Gao, Yao-qiang Sui, Lei Xiu, and Xiao Wang* (China) .. 648
82. Nitrogen Metabolism in Lactating Goats Fed with Diets Containing Different Protein Sources / *A. B. Santos, M. L. A. Pereira, H. G. O. Silva, M. S. Pedreira, G. G. P. Carvalho, L. S. O. Ribeiro, P. J. P. Almeida, T. C. J. Pereira, and J. V. Moreira* (Brazil) 658
83. Effects of Forage Sources on Rumen Fermentation Characteristics, Performance, and Microbial Protein Synthesis in Midlactation Cows / *Jun Xu, Yujie Hou, Hongbo Yang, Renhuang Shi, Caixia Wu, Yongjiu Huo, and Guoqi Zhao* (China) 667

NONRUMINANT NUTRITION AND FEED PROCESSING

84. The Effects of Fat-soluble Vitamin Administration on Plasma Vitamin Status of Nursing Pigs Differ When Provided by Oral Administration or Injection / *Y. D. Jang, M. D. Lindemann, H. J. Monegue, and R. L. Stuart* (USA) 674

85. Pig Feeding under the Potato-green Forage Base System with or without Addition of Herbs versus a Concentrate Based System: Effect on Post-slaughter Performance and Pork Characteristics / <i>Zofia Turyk, Maria Osek, Bogusław Olkowski, and Alina Janocha</i> (Poland)	683
86. Effects of Feeding Rate and Water Temperature on Growth and Body Composition of Juvenile Korean Rockfish, <i>Sebastes schlegeli</i> (Hilgendorf 1880) / <i>Rahman Md Mizanur, Hyeonho Yun, M Moniruzzaman, F Ferreira, Kang-woong Kim, and Sungchul C Bai</i> (Korea)	690
87. Effect of β -Mannanase and α -Galactosidase Supplementation to Soybean Meal Based Diets on Growth, Feed Efficiency and Nutrient Digestibility of Rainbow Trout, <i>Oncorhynchus mykiss</i> (Walbaum) / <i>Nalan Ozgur Yiğit, Seval Bahadır Koca, Behire Isl Didinen, and Ibrahim Diler</i> (Turkey)	700
88. Energy and Ileal Digestible Amino Acid Concentrations for Growing Pigs and Performance of Weanling Pigs Fed Fermented or Conventional Soybean Meal / <i>Y. Wang, W. Q. Lu, D. F. Li, X. T. Liu, H. L. Wang, S. Niu, and X. S. Piao</i> (China)	706

ANIMAL PRODUCTS

89. Bruising in Slaughter Cattle and Its Relationship with Creatine Kinase Levels and Beef Quality as Affected by Animal Related Factors / <i>T. Mpakama, A. Y. Chulayo, and V. Muchenje</i> (South Africa)	717
90. Effects of Housing Systems and the Diet Supplements on the Slaughter Value and Concentration of Mineral Elements in the Loin Muscle of Lambs / <i>M. Gabryszuk, E. Kuźnicka, K. Horbańczuk, and J. Oprządek</i> (Poland)	726

ANIMAL BIOTECHNOLOGY

91. Effect of Glucagon-like Peptide 2 on Tight Junction in Jejunal Epithelium of Weaned Pigs through MAPK Signaling Pathway / <i>Changsong Yu, Gang Jia, Yi Jiang, Qihong Deng, Zhengli Chen, Zhiwen Xu, Xiaolin Chen, and Kangning Wang</i> (China)	733
92. Molecular Characterization and Expression Analysis of Equine <i>Vascular Endothelial Growth Factor Alpha (VEGFα)</i> Gene in Horse (<i>Equus caballus</i>) / <i>Ki-Duk Song, Hyun-Woo Cho, Hak-Kyo Lee, and Byung Wook Cho</i> (Korea)	743

ANIMAL HEALTH

93. Effects of Vitamin C or E on the Pro-inflammatory Cytokines, Heat Shock Protein 70 and Antioxidant Status in Broiler Chicks under Summer Conditions / <i>In-Surk Jang, Young-Hyun Ko, Yang-Soo Moon, and Sea-Hwan Sohn</i> (Korea)	749
--	-----

REVIEW PAPER

94. Historical Overview of the Effect of β -Adrenergic Agonists on Beef Cattle Production / <i>Bradley J. Johnson, Stephen B. Smith, and Ki Yong Chung</i> (USA)	757
--	-----
